Weight (based on size 9):

- 930 grams

Sector Use:

- Agriculture
- Construction
- Engineering
- Maintenance
- Trades
- Utilities
- Warehouse & Logistics

Features & Benefits:

B1150 – A legend in its own lifetime.

In 1998 Buckbootz introduced a very special safety boot, the B1150 dealer style. B1150 brought rugged construction to rugged good looks in a boot design which struck a chord with users working in tough environments like few boots have ever achieved. In 2008 we created the Buckflex feature for dealer boot styles which made the fitting and removing even more wearer friendly. B1150 was fitted with this feature which is a Buckbootz protected design so when you see one of the many B1150 lookalikes on the market, if it doesn't have Buckflex it isn't a B1150.

B1150 MAX now brings a wider fit wear experience for the wearer along with the tried and trusted K3 rubber wave sole.
